

# Exhibit C

**Implementation Agreement  
for  
Integrated Dual Polarization Intradyne  
Coherent Receivers**

**IA # OIF-DPC-RX-01.2**

**November 14, 2013**

Implementation Agreement to be revised and approved  
by the Optical Internetworking Forum

**ABSTRACT:** This contribution reflects the results from the first maintenance cycle of IA# OIF-DPC-RX-01.1 Implementation Agreement for Intradyne Coherent Receivers.

---

The OIF is an international non profit organization with over 90 member companies, including the world's leading carriers and vendors. Being an industry group uniting representatives of the data and optical worlds, OIF's purpose is to accelerate the deployment of interoperable, cost-effective and robust optical internetworks and their associated technologies. Optical internetworks are data networks composed of routers and data switches interconnected by optical networking elements.

With the goal of promoting worldwide compatibility of optical internetworking products, the OIF actively supports and extends the work of national and international standards bodies. Working relationships or formal liaisons have been established with IEEE 802.1, IEEE 802.3ba, IETF, IP-MPLS Forum, IPv6 Forum, ITU-T SG13, ITU-T SG15, MEF, ATIS-OPTXS, ATIS-TMOC, TMF and the XFP MSA Group.
